HOW TO USE THIS BOOK

Firms and organizations are numbered consecutively. If you desire to purchase material for handwork (leather, for instance), find the name of the material in the Alphabetic Index at the front of the book and consult the number or numbers indicated. Also, if you desire some special appliance or service for the blind, refer to the same Index. An alphabetic index of firms and organizations is given at the back of the book.

The 1940 edition differs from that of 1937 in that two additional sections have been included: Firms Dealing in Merchandise for Blind Salesmen, and Firms Issuing Braille Price Lists.

In selecting firm from which to order, study all statements of terms, discounts, etc., following the addresses, and also give special consideration to those firms issuing braille price lists. (See page 22.)

Prices of special appliances, etc., are given by way of general information—slight changes may be expected.
